Notice of decision made by the Tree Warden per CT statute 25-59 in consideration of appeals and public hearing:

Please be it known that I have excepted the applications (2) to appeal the removal of 30 trees as a group posted along Pumpkin Hill rd at this time. All trees will be re-evaluated using a level one risk assessment within 2 weeks using parameters set by the International Society of Arboriculture for Tree Risk Assessment. Upon completion of the re-evaluation, any tree(s) that I feel should be removed will be re-posted. Any tree(s) that I feel the dormant season hinders an accurate risk assessment will be re-assessed at bud break or shortly thereafter of this growing season. All documentation of risk assessment will be available upon request.

David Stone,
Chaplin Tree Warden
CT Arborist S-4582
ISA Qualified Tree Risk Assessor
